

Event graciously underwritten by Marilyn and the late Myers Girsh

This event is intended for the public at large, including individuals at-risk for Alzheimer's disease, their family members, as well as professionals from various fields who may be interested in an up-to-date review of some aspects of Alzheimer's research.

This educational segment aims to provide information about the latest research in the field of Alzheimer's disease prevention, including factors that alter the risk for cognitive decline in older persons.

The forum will allow the audience to interact with top scientists in the field in the presence of a moderator.

Preliminary Program

1:00pm-1:30	Check-in and Refreshments
